ANIKET RAMESH TAGOR

📞 +91 9359523343 ✉ Aniket.tagor24@gmail.com in https://www.linkedin.com/in/aniket-tagor-25932b246/

Aspiring Backend Developer with expertise in Node.js, Express, MongoDB, and SQL, passionate about building scalable and secure applications.

Technical Skills

Languages and Databases: Python, C/C++, SQL
Visualization Tools: Tableau, Power BI
Other Skills: Advanced Excel, Business Analysis, Customer Acquisition
Frontend: HTML5, CSS3, javascript, ReactJs, Tailwind CSS
Backend: Node js, Express

Personal Projects

HRM: Employee Tracking Dashboard | *Tracking, Reporting, Real-time Information*   **Jan 2024 - Feb 2024**

- Developed an employee tracking dashboard utilizing real-time data visualization, integrated with SQL databases for precise tracking, and implemented APIs for seamless HR data synchronization, ensuring efficient workforce management and reporting.
- This system offers improved productivity, accurate attendance records, streamlined HR processes, enhanced data security, real-time workforce insights, and informed decision-making through data-driven analytics.

Ecom Buy & Sell | *Ecommerce Website*   **Sep 2023 - Oct 2023**

- Developed an E-commerce platform for buying and selling, integrating payment gateways, implementing RESTful APIs, secure user authentication, product catalog management, and real-time inventory tracking using SQL databases.
- Developed a secure user authentication system using JWT and bcrypt ,APIs, data visualization (D3.js, Chart.js), and security (OAuth, encryption) by developing an *e-commerce website*.

Chat Application |*Secure, User Authentication, Real-time message, notification*   **Mar 2022 - Mar 2022**

- Developed a real-time chat application with user authentication, group chats, file sharing, and searchable message history.
- Built frontend using HTML5, CSS3, and JavaScript ,backend: firebase and also used for security OAuth, encryption.

Awards & Achievements

Google Digital Garage | *Digital Marketing*   **Aug 2022 - Sep 2022**

- Completed various courses on cloud computing, including an in-depth understanding of Google Cloud Platform (GCP). Acquired skills in managing cloud services, implementing cloud solutions, and leveraging cloud-based tools to optimize digital operations.

Google Cloud Arcade| *Google Cloud*   **Feb 2022 - Sep 2024**

- Developed and optimized interactive games for Google Arcade using Google Cloud technologies. Leveraged Google Cloud Storage for seamless data management, implemented Cloud Functions for efficient backend processing, and utilized BigQuery for real-time analytics.

WNS Cares Foundation Certificate | *Speaking skills*   **Mar 2022 - Apr 2022**

- Completed a comprehensive training program on speaking and soft skills, covering public speaking, interpersonal communication, professional etiquette, emotional intelligence, and problem-solving. This training enhanced my ability to communicate confidently and work effectively in professional settings.

Education

JSPM Bhivrabai Sawant Polytechnic College   **Aug 2021 – June 2024**
Diploma in Computer Engineering   (8.4 CGPA)   *Pune, MH*

Madhav Institute of Technology & Engineering College   **Sep 2024 – June 2027**
Btech in Computer Engineering   *Gwalior, MP*
